## **Breeding & Breathing**

It's that time of year when we are looking forward to enjoying our horses!

Please come and join equine vets from Frame, Swift & Partners at Rheged at 7.30pm on Thursday 10<sup>th</sup> March 2011 for an illustrated talk on the big screen covering the very essence of equine life: breathing, breeding and foaling.

We will show illustrated cases covering everything from poor performance, chronic coughing, artificial insemination, early embryonic life and foaling problems.

It's nearly springtime: come out of hibernation, bring your friends and have a horsey evening with us. We look forward to seeing you!
